SOUIRREL HILL ELECTRIC ROAD O. K.

The election being over, proceedings in Councils were so dull at the opening yesterday that the chambers most of the time had much to remind one of opium joints at 7 o'clock A. M. The matter that attracted most attention was the appropriation bill. Most people craned their necks as the clock showed a quarter past convening time, and Mr. Ferguson predicted that his throat would be rasped, as he thought it would come in at the last moment and must be swallowed without trimming, but it didn't come. At 2:25 a quorum was short by four

got them. The first thing that roused attention in Select Council was a report from Chief of Department of Public Safety Brown, giving the information asked regarding the purchase of hose during last year. The report characterises some of the statements of the Mayor as incorrect, as inspection will

Previous February 21, 1889. To the President and Members of Select Council: GENTLEMEN-In answer to your resolution of February 11, 1889, in reference to the hose. I beg leave to say that during the year 1888 this department purchased 6,000 feet of three-inch hose. This was purchased on April 20, 1888, in empliance with advertisement and proposals made therefor by the Department of Awards, at which time there were but two bids, that of the Eureka Hose Company for three-inch circular seamless multiple rubber-lined cotton hose, made of the best Gulf cotton, three inches in diameter, with standard fire department couplings attached. The bid of the said Eureka Hose Company was \$1 10 per foot. A CHANCE TO JUDGE.

At the same time the Department of Awards received a bid from H. L. Childs & Co. for and on behalf of the Baker Fabric Fire Hose Company of the city of New York, their bid being \$1 20 per foot. The original samples are herewith submitted to your honorable body.

I also hereto attach and make part of this report a detailed statement of the number of net of hose now owned by the department per company, showing the number of feet in good, fair and worn out condition.

The usual guarantee of the Eureka Hose

Company is for a term of five years. That of the Baker Hose Company, H. L. Childs & Co., gents, being for a term of 36 months.

The hose purchased for the department during my term has given, so far, perfect satis-

ection. An actual test demonstrated that the Linch hose would throw 40 per cent more water than the 236-inch hose; that the strain upon the machinery is much less; and it is my desire, as hose may be needed from time to time in the future, to equip the bureau with | do so. I would respectfully ask your personal

examination of the two samples submitted. \$25, but his amendment was voted down. ing so as to show the etc. Thet, the Baker has the rubber lining

I further desire to state that the statement made by His Honor, the Mayor, in a recent amunication to your honorable bodies in reetion to the fire bose, is, so far as the department is concerned, a misstatement of facts.
The exact amount of money expended for hose during the year 1888 was \$6.600, as appears of record in the Controller's office.

For what may have been done by the Board of Fire Commissioners previous to my admin-

of Fire Commissioners previous to my summistration I am in no way responsible; but I presume, from the character and standing of the gentlemen constituting the Fire Commission, the money at their disposal was judiciously ex-

Dr. Evans called attention to the fact that the report was deficient in that, while stating that the Eureka guaranteed its hose for five years, Council was informed that from 6,000 to 10,000 feet were bought each year, but nothing was said as to what be-came of an evident accumulation, or loss, or something else.

THE COMMISSION AND ITS HEIR, Mr. Robertson defended Mr. Brown and his report, stating that he was not obliged to go beyond the life of his department. Mr. Evans-The Chief is the legal heir of the Fire Commission. I know by 10 or 12 years' experience that we have been buying the amount of hose I stated, and I would like to know what has become of it. I am curious to know, and so are others, what beomes of hose guaranteed for five years, and think the Chief ought to learn from Chief

Evans on the subject.

The report was received and filed, and no obing suggestions were entertained. A vast amount of street opening and her ordinances were put through finally in bundles, and then there was an awaken-ing caused by the ordinance to regulate burg, Pa.

balls, masked balls, Yellow Dog and Mark Twain Rod and Gun Club socials, etc. It required that the Department of Public Safety have three days' time to enable it to judge of the character of such entertain-ments and that all balls pay a fee of \$25 for each 24 hours of their existence, fine and imprisonment to follow infractions.

Mr. McKee raised the point that a corpo-ration could not be imprisoned, and that the ordinance to be effective must make the parties representing the corporation fineable and imprisonable, and he offered an amend-

and imprisonable, and he offered an amend-ment to that effect.

Mr. Lambie further offered to amend Mr.

McKee that \$25 fee should be charged for masked and but \$5 for other balls. Mr. Skeiton wanted an ordinance that would not permit masked balls at all. He

would not permit masked balls at all. He wanted to avoid even the appearance of evil. He was opposed to all balls, as officers could not be depended on to do their duty. He denounced the license provision as blood money. City officials were in attendance at the Mark Twain Bod and Gun Club ball lending their sanction.

Mr. Robertson interrupted to say that Mr. Skelton stopped short of the logical conclusion and wanted to know why he allowed license of any kind, and Mr. Skelton said that he would not if he had the power. Mr.

that he would not if he had the power. Mr. rtson concluded by offering an amendment that the provision should not apply to purely social affairs.

ONE REASON FOR IT.

Dr. Evans thought the ordinance a good thing, but he could not understand why the police could not have suppressed the disorder at the M. T. R. & G. ball.

Mr. Sullivan came back with the argument of like priest, like people. He under-stood that the conduct of city officials at the ball in question was fully as disgraceful as that of other people present. He would have no masked balls at all. The organization in question could pay \$500 heense as easily as some poor young men could pay \$5 for innocent relaxation of this kind.

Mr. Robertson defended the ordinance on

the ground that it placed responsibility for such things on a department that could be

Mr. McKee's amendment was defeated by a vote of 11 to 11, so that it left the Standard Oil Company liable to imprisonment it if held a ball without a license and refused to pay its fine.

Mr. Lambie pressed his amendment and demanded the ayes and noes, saying he wanted to know who were and who were not in favor of morality. This raised quite an animated protest, as Mr. Sullivan coupled houses of ill-fame in connection, and both Mr. Skelton and Mr. Getty took exceptions, though not exactly assigning the same rea-sons. Mr. Lambie's amendment was defeated, 15 to 11.

Mr. Robertson next offered an amendment that the ordinance should not apply to private or charity balls, the authority designated to be the judge of the character of the entertainment proposed.

Mr. Lambie offered an amendment to the

amendment to exclude masked balls. The amendment prevailed, 15 to 12, Mr. Sullivan voting for it. Mr. Frew next came in with an amend-

ment to strike out everything relative to masked balls, and also to strike out the provision requiring a license of \$25, leaving the matter simply under the control of the Board of Public Safety. This brought out Mr. Getty in full

strength. In the first place, he gave the city officials a bill of moral health, and said politicians were obliged to attend such balls or get left. They will go to church or to the masked ball to get votes. Said he necessary in my canvass. In well-regulated families daughters do not ask to be allowed to go to balls where they will be marked and twained (contaminated).

AS TO POLICE SUPERVISION. Dr. Evans held there should be police supervision of public balls and people who want them should pay for it, and Mr. Hollands and several other people assured

him that at present they were required to Mr. Robertson moved an amendment to the amendment making the fee \$5 instead of Mr. Getty came to the fore again and told good times he and the other old box had in their youth when they took their sweethearts to masked balls 20 and 25 years ago, and demanded that the youth of the present day should be allowed equal privi-

leges with their progenitors.

Mr. Frew finally called for the ayes and noes on his amendment, and it prevailed, 17 to 10, amid an expiring kick from Mr. Skel-At this juncture a motion was carried to adjourn, and as the ordinance now stands it simply gives the Board of Public Safety control, and thus places the responsibility,

should it pass. should it pass.

A special meeting of Select Council is called for to-morrow afternoon to clear the desks of last year's business.

The financial report of the Department of

The financial report of the Department of Public Safety for the month of January was presented and adopted:

ANOTHER ENGINE HOUSE.

Mr. Bigham called up the ordinance for the purchase of a lot in the Thirty-second ward for an engine house, not to cost more than \$2,200. President Halliday (Mr. Bigham in the chair) moved to amend by pro-viding that the lot shall be at or near the line of the Thirty-fifth ward. The amendment was agreed to and the ordinance was

aid over for printing.

Mr. Wightman called up the ordinance giving the Squirrel Hill Railroad the right of way, and moved to amend by providing that the road shall start from Forbes and Boquet streets instead of Fifth avenue and Boquet street, and shall be completed in 12 months instead of 18 months. The amendments were agreed to, and the ordinance

went over for printing.

Mr. Magee presented petitions from a number of business men, asking for the repeal of the business tax. Referred to the Finance Committee.

Mr. Magee, from the special Committee on Legislation, returned the Stewart grade crossing bill, now pending at Harrisburg, with amendments, which provide that in-stead of the city and railroads dividing equally the cost of making crossings not at grade, the cost shall be divided by three grade, the cost shall be divided by three disinterested persons, when such crossings are at streets already opened, or at streets which have been plotted at grade. Mr. Bigham moved to postpone until the bill could be printed for the use of Councils, which motion prevailed.

Mr. Wightman called up the Squirrel

Hill Railroad ordinance, and, after reconsidering the provision which changed the time of completion from 18 months to 12 months, the ordinance was passed finally.

BUNKO PAPERS GONE

A Startling Situation in the Penney Case for False Arrest.

WHERE DID THE DOCUMENTS GO?

The Suit to be Called for Trial in Court This Morning.

SHOT TOWER AGAIN, AND COURTLETS. That Murdoch \$10,000 bunco case and its attendant litigation never will down, it seems. It has yielded several sensational developments; and now it produces an-

other. The suit of Dr. Penney, who, though-arrested as a conspirator to the Murdoch robbery, was clearly acquitted, is to be called in court this morning. It is an action against Mr. Murdoch and Detectives Perkins, Anderson and Todd, for \$30,000 damages for false arrest. The papers in the case are deemed very important.

Yesterday Attorney Price, for Dr. Penney, applied to the Clerk of Courts for the original information, warrant and commitment under which the doctor was thrown into jail. Clerk Long searched for them, but reported that these papers were not to be found among his archives. The prosecution was referred to Alderman Cassidy as likely to be in possession of these legal documents, so essential in convincing a jury just how the alleged false arrest was made. But Dr. Penney says the Magistrate has not got and could not get these papers from court without giving his receipt therefor. They were legal records the trials of the Barnett and Penney cases in Criminal Court, and nobody but those directly interested in these or attendant trials could legitimately have access to them.

This loss was kept very quiet yesterday, but it may be again heard from again before the

Mrs. Grantz claims \$20,000 against the firm. Mrs. Grantz claims \$20,000 damages for the injury she sustained by lead poisoning resulting from the particles of arsenic that permeated the atmosphere from the shot tower. The first suit was brought by her husband, George Grantz, who, in the second trial of the case, after having taken it to the Supreme Court, received a verdict for \$700 damages.

Merit, Like Murder, Will Out.

Why is it that all the leading actors and why is it that all the leading actors and actresses while in Pittsburg have Dr. Charles Scott attend to their teeth? The answer is very plain. His fillings are beautiful works of art, and they never come out. To those who have not seen his fine work, we would say, visit his offices at 624 Penn avenue, opposite Horne's, and you will be convinced. His rooms are always crowded with patients, and in conversation with several, we discovered that they had had their teeth filled by other dentists, who bear good reputations, and the fillings came out, and not until Dr. Scott did their work had they received any permanent satis-
